

Bell & Gossett

Packaged Systems Group

Heat Transfer Packages

True Unit Responsibility and Design Flexibility to Meet Your Specific Application Needs from the System Experts

The modern approach to comfort heating of schools, industrial plants, hospitals, office buildings, apartments, and commercial buildings using rugged Bell & Gossett components.

Bell & Gossett

Industry Leader for both HVAC Components and Packages

ITT Industries' Fluid Handling group has been both a leader and pioneer in the HVAC market for over 75 years. We manufacture and market a complete line of centrifugal pumps, heat exchangers, air control devices, steam valves and traps to cover a broad range of your application needs. We are able to package several combinations of the components we manufacture to produce a heat transfer package with true "unit responsibility" that is specifically tailored to meet your requirements.

We can promise you personalized attention because we're backed by a worldwide network of factory trained representatives. We work with you to analyze your total system and determine exactly what products are required for a complete custom pre-packaged system to provide optimal performance for your application. Single source "unit responsibility" guarantees the components will interface properly and simplifies future maintenance and technical support.

Our dedicated Packaged Systems engineering team, with both electrical and mechanical expertise, utilizes state-of-the-art CAD techniques and programs to ensure the design and fabrication of your package meet the most stringent industry standards.

Our 550,000 square foot facility is dedicated to manufacturing quality hydronic equipment and packaged systems. We provide complete systems designed by Bell & Gossett engineers, assembled and factory tested to ensure proper interface of components as well as overall system performance:

- Performance testing capabilities up to 9,000 gpm and 500HP.
- ASME certified welders
- ISO 9001 certified
- Complete packages UL listed

Wide Range of Custom Electrical Control Choices

Basic Starter Panel

- NEMA 1 enclosure (optional NEMA 4 & 12 for rugged environments)
- UL listed / ETL or CSA optional
- Constant speed IEC starters with overload protection
- One-or-multiple pump control
- Short circuit protection via fuses or circuit breakers
- Pump run indicator lights

Technologic 350 Panel

All of the features of the basic starter panels PLUS...

- Greater energy efficiency with 5 staging methods available
- Staging via kw, amps, flow, pressure and temperature
- Advanced, Bell & Gossett engineered microprocessor with EPROM design
- Built-in redundancy to ensure continuous operation
- Automatic transfer to standby pump upon primary pump failure
- Manual and automatic alternation
- User friendly operator interface with on-screen help functions
- Multi-fault memory and recall with plain English display
- Display flow, pressure, temperature, KW, Amps, pump run time...

Technologic Variable Speed Controls

For tremendous operating cost savings potential and superior operating performance, a variable speed control option is available. Bell & Gossett has engineered a complete family of controllers that precisely match controller features to the needs of each specific application. From a basic one-or two-pump system to highly sophisticated systems with advanced energy savings and communications via multiple signal protocols, Bell & Gossett can meet your needs.

BELL & GOSSETT PRODUCTS

Stocked ... Sold ... Serviced EVERYWHERE!
