Goulds Pumps

JRD Convertible Jet Pumps ½, ¾ and 1 HP - 60 Hz JRD5, JRD7 and JRD10

Goulds Pumps is a brand of ITT Corporation.

www.goulds.com

Engineered for life

FEATURES

- Convertible: May be used on shallow or deep well applications using appropriate Goulds Pumps fittings.
- Serviceable:
 - Back pullout design allows disassembly of pump for service without disturbing piping.
 - Corrosion resistant, engineered plastic tubing and fittings are easily removed for cleaning. Premium O-ring design, fittings need only be hand tight to seal.
- Impeller: F.D.A. compliant, glass filled Noryl®. Corrosion and abrasion resistant.
- Diffuser (Guidevane): F.D.A. compliant, injection molded, food grade, glass filled Lexan® for durability and abrasion resistance.
- Powered for Continuous Operation: Pump ratings are within the motor manufacturer's recommended working limits. Can be operated continuously without damage.
- Corrosion Resistant: Electro-coat paint is baked on.
- Excellent Air Handling Ability: After initial priming the pump has the ability to re-prime itself even when air enters the system. Pumping resumes once the water level rises above the foot valve.
- Basic Pump Unit: Includes pump and motor, pressure switch with tubing and fittings.
- Water system tank required on all systems.

APPLICATIONS

Specifically designed for:

- Homes
- Farms
- Cottages
- · Booster service

SPECIFICATIONS

Pump:

• Pipe connections:

1" NPT discharge 11/4" NPT suction

1" NPT pressure.

• Pressure switch: AS4 preset at 30-50 PSI.

Motor:

- Standard NEMA service factors.
- 60 Hz
- ½ − 1 HP 115/230 V capacitor start.
- Single phase.
- 3500 RPM.
- Built-in overload with automatic reset.
- Stainless steel shaft.
- Rotation: clockwise when viewed from motor end.

Maximum temperature: 140°F.

ADDITIONAL COMPONENTS REQUIRED

- Deep Well Package: Choose either a twin pipe or packer style.
 - Twin pipe includes jet body, nozzle, venturi and foot valve.
 - Packer includes packer body, nozzle, venturi and built-in check valve.

NOTE: Packer systems also require an AWJ2 packer adapter on the wellhead.

■ Deep well systems require a pressure control valve.

NOTE: You must have JDW or AV22KIT to make the pressure switch connection.

AGENCY LISTINGS

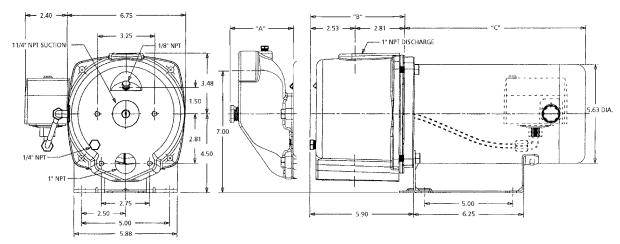

Canadian Standards Association LR38549

Goulds Pumps is ISO 9001 Registered.
