

NEW!

MAXIMUM INNOVATION

from **Myers**[®]

The New BasinPro™ Packaged Residential Sewage System

What do you want? BasinPro™ Delivers!

- **Integral 360° Top Grip,** for easy lifting and handling in tight spaces.
- **45-Gallon Basin Capacity,** At 24" x 24", the BasinPro offers 10% more capacity than the leading competitors' best system for single-family homes— 30% more capacity than standard 18" x 30" basins!
- **Optional Alarm (SA-I)** Can be purchased separately
- **Anti-Flotation Features** Concrete splash lip and unique basin shape keeps the system from floating or becoming "un-installed"
- **"Concrete-Proof" Cover** Insert protects the system from damage during rough-in and masonry work.
- **Stackable Design,** so you can carry more units on your truck, and inventory vertically to save space.

- **E-Z Switch™ Rod** lets you easily remove float switch without disassembling basin lid or handling pump or plumbing. Additional clip for secondary float included, float sold separately.

- **Available with 4/10 HP (SRM-BP) or 1/2 HP (CMV-BP) Myers Sewage Pumps with 2" Solid-Handling Capability** Pumps are pre-installed in basin, with integral torque stops to ensure stability.
- **Shallow-Depth Basin,** only 24" deep, reduces installation time for digging pit.

Myers BasinPro™ Packaged Residential Sewage Systems

Pre-assembled, with 45-Gallon Basin, Residential Sewage Pump with E-Z Switch™ Liftout Rod and Float Switch
