ACS-2 & 3 Auxiliary Condensate Overflow Safety Switch

Applications

 Installs in condensate drain pan of air conditioning or refrigeration units; reliable equipment shutdown when overflow conditions are detected

Features

- Easy to install, inspect and maintain
- Compact design mounts to side of A/C condensate drain pans
- Detects high condensate levels in drain pans and shuts off the system
- Can be installed to activate audible or visual alarm circuitry
- ABS housing and float
- Complies with applicable building codes
- Switches can be wired to operate as NO or NC
- Operation:

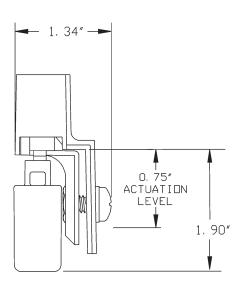

ACS-2 — 48 VAC/DC max, 5 amps max ACS-3 — 125-250 VAC max, 11 amps max, up to 1/3 HP

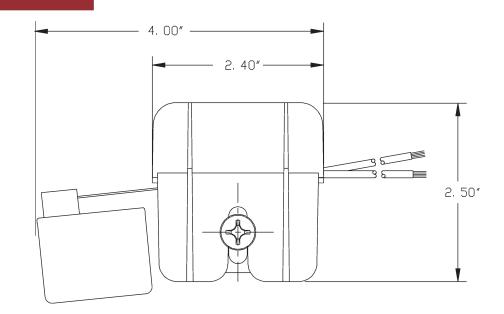

• Lead wires:

ACS-2 — 18" and 72" leads ACS-3 — 72" leads
