WILO IL

Dry Rotor Inline Centrifugal Circulators

The IL is the latest addition to WILO's range of 21st century-engineered inline centrifugal circulators. The IL is available in sizes from 1¼" to 4" and features a trimmable bronze impeller, optional all-iron construction, a standard industrial quality bellows style mechanical seal, integrated suction straightening vane, suction and discharge pressure gauge tapings with square head plugs, and volute drilled and tapped for mounting. Heavy-duty? We call it *Pumpen Intelligenz*
